SUBJECT: BLUE LANTERN LEVEL 3: PRE-LICENSE END-USE CHECK
ON APPLICATION 050136522

REF: 2006 BLUE LANTERN GUIDEBOOK

¶1. This is an Action Request. See paragraphs 2-4.

¶2. The Department's Office of Defense Trade Controls Compliance (PM/DTCC) requests post's assistance in conducting a pre-shipment check on application 050136522 for the export of M-113 component parts to Spain. Post is requested to complete this Blue Lantern check within 30 days. Lack of response to a Blue Lantern check will affect pending and future licenses involving parties to this license.

¶3. Reason for request: Lack of documentation from the Spanish MoD and unfamiliar foreign consignee, Zeltmann Import-Export GmbH. The company has appeared on previous licenses but the company's bona fides have not been established by a Blue Lantern check.

¶4. ACTION MADRID: Embassy is requested to make inquiries with appropriate host government officials to determine if the Spanish MoD (SMOD) ordered the M-113 component parts and if so, confirm that the articles will be used for the purpose stated on the license. Post is requested to exercise its contacts within the SMOD to verify this order.
END ACTION.

¶5. ACTION BERLIN: Embassy is requested to make inquiries with appropriate host government officials in order to establish the bona fides of unfamiliar foreign consignee Zeltmann Import-Export GmbH (Zeltmann) and to verify the legitimacy of this transaction. PM/DTCC also requests that post conducts a site visit to the company in order to provide Department with an assessment of its business operations and on-site security. Finally, post is asked to assess whether the company appears to be a reliable recipient of USML items. If a site visit is not possible, please inform the PM/DTCC officer.
END ACTION

The following questions are provided as suggested guidance:

--Does the company have supporting documentation for this transaction? Are all of the USML parts going to the Spanish MoD?

--Does the company have proper accounting and security procedures for handling USML items?

--Will Zeltmann retain positive control over the M-113 component parts at all times?

--When was the company established and who are its

principals?

--What is the nature of its business -- what type of items does it handle, does it serve as a broker?

--What type of organizations are among its typical customers and where are the customers located?

--Does the company understand the restrictions on United States Munitions List (USML) items, especially the prohibition against unauthorized re-transfers and re-exports?

--Does the company understand the prohibition against the unauthorized stockpiling of USML items?

END ACTION
